Photo Staging Protocol

Hosts need photos when something is wrong OR for quality assurance. Take these every turnover:

- ☐ Made bed — straight-on, well-lit
- ☐ Bathroom — toilet lid down, towels folded, mirror clean
- ☐ Kitchen — clear counters, sink empty
- ☐ Living area — staged like listing photo
- ☐ Any damage or maintenance issue (close-up + wide shot)

Upload to host portal within 30 minutes of completion.

Quality Standards (5-Star Test)

- ☐ Property smells clean (not chemical-heavy — light ventilation)
 - ☐ Beds look like a hotel — no wrinkles, pillows uniform
 - ☐ Bathroom is hair-free and shiny
 - ☐ Kitchen has no dishes in sink
 - ☐ Floors are vacuumed — check entry mat and under dining table
 - ☐ Matches listing photos at a glance
-

Do NOT (Airbnb Turnover)

- **✗** Reuse guest linens — always fresh from host supply or your laundry
- **✗** Leave personal items from previous guest (check drawers and under beds)
- **✗** Ignore a broken item — always report same day

- ❌ Rearrange furniture away from listing layout
 - ❌ Use strongly scented products (guests may be sensitive)
 - ❌ Skip the 2-hour deadline without notifying host immediately
 - ❌ Eat food or use amenities left by guests
-

Emergency Escalation

Report to host **before leaving** if you find:

- Broken appliances, leaks, or active water damage
 - Biohazards, pests, or excessive mess beyond normal turnover
 - Missing linens or keys
 - Guest still in property at your arrival time
-
