

Storage & Organization Guide

The Cleaning CEO Blueprint — 100% Cleaner Academy

Chaos in your storage unit becomes chaos in client homes. This guide covers how to organize supplies, restock efficiently, and keep vehicles job-ready.

Why Storage Systems Matter

Problem	Cost
Cleaner arrives without right products	Wasted drive time, poor quality
Duplicate buying	Eats 5–10% of supply budget
Expired or leaked chemicals	Safety hazard, wasted money
No client-specific items	Forgotten preferences, complaints

A organized back-end makes your front-end look professional.

Storage Unit Layout

Choosing a Unit

Team Size	Recommended Size	Monthly Cost (varies)
Solo + 1–2 cleaners	5×10 or 10×10	\$75–\$150
3–5 cleaners	10×15 or 10×20	\$150–\$300
6+ cleaners	10×20+ or warehouse	\$300+

Location: Within 15 minutes of your densest service area. Drive time to storage kills margins.

Floor Plan (10×10 Example)

SHELVING A	SHELVING B
(Bulk chemicals)	(Paper/restock)

BIN 1	BIN 2	BIN 3	BIN 4	
Clnt	Clnt	Clnt	Clnt	
EQUIPMENT ZONE				
Vacuums • Mops • Caddies • Spare tools				
UNIFORM / LAUNDRY CORNER				

Zone Labels

Use colored tape or labels on floor/shelves:

Zone	Color	Contents
A — Chemicals	Red	Sprays, degreasers, disinfectants
B — Consumables	Blue	Paper towels, trash bags, sponges
C — Client bins	Green	Per-client dedicated items
D — Equipment	Yellow	Vacuums, mop heads, tools
E — Admin	White	Forms, spare keys, marketing

One Bin Per Client System

For recurring clients with specific preferences, assign a dedicated bin.

What Goes in a Client Bin

Item	Example
Preferred products	Client-provided or your approved brand
Special instructions card	Laminated, taped inside lid
Spare supplies	Extra microfiber in their preferred color
Key tag	Labeled, on hook above bin
Add-on kit	Pet-safe spray if they have dogs

Bin Label Template

CLIENT: [Last Name]

ADDRESS: [Street – city only for privacy in unit]

CLEANER: [Primary assigned]

PRODUCTS: [Mrs. Meyer's / hypoallergenic / etc.]

NOTES: No bleach. Use side gate. Dog friendly.

When to Use Client Bins

- **Yes:** Weekly/bi-weekly recurring, 6+ month clients
 - **Yes:** Allergy-sensitive or product-specific requests
 - **No:** One-time deep cleans (use general stock)
 - **No:** Move-outs (disposable mindset)
-

Shelving & Container Standards

Recommended Containers

Item	Type	Qty
Client bins	16–27 qt clear plastic with lid	1 per recurring client
Chemical storage	Original bottles in locked cabinet	—
Microfiber	Color-coded bins (blue bath, yellow kitchen)	3–4
Caddies	Portable for vehicle	1 per active cleaner
Bulk items	Stackable bins with lids	As needed

Chemical Safety

- Store upright, lids tight, away from heat
 - SDS sheets in admin zone (or digital folder)
 - Never mix products in storage
 - Separate acids from bases
 - Locked cabinet if unit is shared-access facility
-

Restocking System

Who Restocks

Model	Who	When
Owner-managed	You	Weekly
Cleaner self-serve	Each cleaner	After last job Friday
Lead cleaner	Lead	Sunday prep for week

Weekly Restock Workflow

1. **Inventory check** — use [Weekly Inventory Sheet](#)
2. **Pull low items** from bulk shelving to caddies
3. **Refill client bins** — check instruction cards
4. **Laundry** — microfiber and mop heads (never fabric softener)
5. **Trash** — empty chemical bottles per local disposal rules
6. **Log order** — place supply order by cutoff day

Par Level System

Set minimum quantities — reorder when you hit "par."

Product	Par Level (per cleaner caddy)
All-purpose cleaner	1 full bottle
Bathroom cleaner	1 full bottle
Glass cleaner	1 full bottle
Microfiber cloths	12 clean
Trash bags (kitchen size)	1 roll
Sponges	2
Gloves	5 pairs

Vehicle Organization

Cleaner Vehicle Setup (If They Use Own Car)

Provide a **company caddy** that moves car to car — standardize what's inside.

Caddy Contents Checklist

- ☐ All-purpose cleaner
- ☐ Bathroom cleaner
- ☐ Glass cleaner
- ☐ 12 microfiber cloths (color-coded)
- ☐ Scrub brushes (toilet, grout)
- ☐ Extendable duster
- ☐ Gloves
- ☐ Trash bags
- ☐ Small vacuum (if not stored in vehicle permanently)
- ☐ Client keys (day of job only — return same day)

Vehicle Rules

1. Chemicals upright in trunk, not rolling around
2. Vacuum secured — not a projectile
3. No food trash mixed with supplies
4. Client keys never overnight in vehicle unless locked safe
5. Weekly vehicle wipe-down (professional appearance)

Company Van/Truck (When You Scale)

Zone	Contents
Driver side	Personal, phone mount, GPS
Passenger floor	Day's caddies (1 per job)
Rear left	Vacuums, mop bucket, large tools
Rear right	Bulk restock, paper goods
Locked box	Keys, backup supplies

Key Management

Rule	Detail
Check-out	Sign key in/out log when leaving storage

Same-day return	Keys return to storage or manager by end of day
No duplicates	Without client written consent
Lost key	Client notified immediately, rekey cost policy applies
Digital	Lockbox codes in app only — not group chat

Laundry Protocol

Microfiber and mop heads should be washed **at storage or commercial laundry** — not at client homes.

Wash Rules

- Separate by color
- No fabric softener (ruins absorbency)
- Low heat or air dry
- Replace when stained or frayed (budget monthly)

Monthly Storage Audit

- ☐ Expired products removed
- ☐ Client bins updated for any instruction changes
- ☐ Equipment tested (vacuum suction, mop head condition)
- ☐ Shelving stable, labels legible
- ☐ Insurance covers stored equipment value
- ☐ Unit lock functioning, access log reviewed

Scaling Storage

Revenue	Storage Strategy
Under \$10K/mo	Garage or closet + small unit
\$10K–\$30K/mo	Dedicated 10×10, client bin system
\$30K–\$75K/mo	Larger unit, lead cleaner manages restock

\$75K+/mo	Warehouse shelf system, inventory software
-----------	--

Supply Order Cadence

Frequency	Order
Weekly	Paper goods, trash bags, gloves
Bi-weekly	Sprays, sponges, mop heads
Monthly	Bulk chemicals, vacuum bags/filters
Quarterly	Equipment replacement budget

Use the [Weekly Inventory Sheet](#) every Friday.

A clean storage unit is a clean operation. 100% Cleaner / The Cleaning CEO Blueprint.
